SENSATIONAL DAY

General Eagan Creates a Stir in Presenting His Testimony.

HE CALLED GEN. MILES A RASCAL

Regarded by Army Officers as the Most Mine Workers and Operators Are Sensational Testimony Ever to Come Before a Military Investigating Committee.

Washington, Jan. 12.—Commissary-General Charles H. Eagan today reappeared before the war investigation commission to answer the charges of General Nelson A. Miles concerning the commissary supplies furnished the army during the recent war. General Eagan's statement funnished the sensation of the war commission's history and was regarded by old army officers as one of the most remarkable attacks ever made in the history of the

General Eagan's statement to the commission on . hearing its conclusion ordered a brief executive session, after which the doors were opened the witness was recalled and the business resumed in the usual way. subject in controversy was General Miles' already famous "embalmed beef" testimony and the letters and documents supporting it. General Miles had charged that the canned and refigerated meats sent to the army in Cuba and Porto Rico were unfit for use; that they were preserved by the use of chemicals and that they had "been bought and sent to the army under the pretense of an experiment." This reflection upon both the ability and honesty of the commissary department had angered General Eagan and caused him to request to be recalled to reply to General Miles' charges. That his statements concerning the commanding general were not the result of a sudden outburst of passion was clearly shown by the fact that General Eagan read his remarks from carefully prepared typewritten copy. General Eagan called General Miles "a Har, who lied in his throat, lied in his heart, lied in every part of his body, who perpetrated a gress scandal and who should be drummed out of the service and be imprisoned and should be avoided by every honest man and barred from every club." He characterized his interviews as "filth."

As soon as General Eagan's statements became known attention was directed to the army headquarters to ascertain what move would be made by General Miles. The latter, through Col. Michear, his chief aide, beyond saying that he had stood for the soldiers, he declined to make any statement, saying that now was not the time for talk, and before taking any action it would be only proper and necessary to wait until he had an opportunity to receive through the regular channels and to consider the testimony furnished by General Eagan. He would not talk about a court martial.

ernment to increase its army.
